---

## RESEARCH INTERESTS

Human-AI Interaction, Crowdsourcing and Human Computation, Applied AI, Fairness

---

## EDUCATION

### Purdue University, West Lafayette, Indiana

- Ph.D. in Computer Science **3.96/4.0** Jan 2020 – Present
- M.S. in Computer Science (Transferred to Ph.D.) **3.93/4.0** Jan 2019 – Dec 2019
- B.S. in Computer Science (Software Engineering Track, **Distinction**) **3.92/4.0**. Aug 2015 – Dec 2018

---

## SKILLS

**Programming Languages:** Python, C/C++, C#, JavaScript, Java, HTML/CSS, R, Bash

**Machine Learning Tools:** scikit-learn, NumPy, Pandas

**Tools & Platforms:** Git, Meteor.js, MongoDB, MTurk, Android SDK, Firebase

**Soft Skills:** Leadership, Teamwork, Time Management, Problem-Solving, Adaptability, Communication

---

## PUBLICATIONS

[P1] Meric Altug Gemalmaz, Ming Yin. “Understanding Decision Subjects’ Fairness Perceptions and Retention in Repeated Interactions with AI-Based Decision Systems.” *Proceedings of the 5th AAAI/ACM Conference on AI, Ethics, and Society (AIES)*, Oxford, UK, August 2022.

[P2] Meric Altug Gemalmaz, Ming Yin. “Accounting for Confirmation Bias in Crowdsourced Label Aggregation.” *Proceedings of the 30th International Joint Conference on Artificial Intelligence (IJCAI)*, Online, August 2021.

---

## RESEARCH IN PROGRESS AND UNDER REVIEW

[W1] Meric Altug Gemalmaz, Ming Yin. “An Investigation of Decision Subjects’ Interaction with and Perceived Fairness of Daily Updated AI Managers.” (*Work In Progress*)

[W2] Meric Altug Gemalmaz, Ming Yin. “Understanding Decision Subjects’ Engagement with and Perceived Fairness of AI Models When Opportunities of Qualification Improvement Exist.” *arXiv:2410.03126 (Under Review)*

---

## RESEARCH EXPERIENCE

**Human-subject Experiments** Jan. 2020 – Present

- Coordinated **1,500+** human participants across **4+** research projects on **MTurk** for data collection and analysis.
- Developed and deployed web applications using **JavaScript** and the **Meteor.js** framework, managed back-end databases with **MongoDB**, and implemented front-end interfaces using **HTML** and **CSS**.
- Increased participant engagement and facilitated high-quality data collection by implementing interactive, scenario-based user interfaces, while ensuring robustness against bot attacks through effective security measures.

**Exploring Fairness in Algorithmic Management [W1]** Dec. 2023 – Present

- Collaborating with gig workers to explore their long-term behavior toward AI-driven gig assignments with varying levels of fairness, aiming to encourage AI developers to make more responsible and inclusive design choices.

**Understanding Decision Subjects’ Fairness Perceptions and Engagement [W2, P1]** Mar. 2021 – Dec. 2023

- Conducted human-subject experiments to examine how loan applicants’ repeated interactions with an AI-based loan approval system affect their fairness perceptions and willingness to continue engaging with the AI.
- Simulated loan applicants’ AI interactions with a **Markov Decision Process** to estimate proper human-subject experiment parameters, then collected data to analyze real human-AI interactions with **regression analysis** to understand human behavior.
- Discovered a critical fairness issue: similar AI usage across demographics often hides unfairness, as people continue using biased models out of necessity, not fairness. This persistence challenges developers to rethink usage as a measure of model fairness.

**Data Bias Mitigation Algorithm [P2]** Mar. 2020 – Mar. 2021

- Leveraged advanced unsupervised learning techniques to detect and mitigate cognitive bias in crowdsourced data annotations.
- Utilized **probabilistic graphical models** to model annotator bias and used the **Expectation-Maximization algorithm** to infer ground-truth annotations.
- Achieved over **10% increase** in inferred label accuracy over existing baselines through reduction in annotation bias.

## SELECT COURSES

---

**Graduate Courses:** Data Mining (A), Algorithm Design, Analysis, And Implementation (A+), Statistical Machine Learning (A-), Simulation And Modeling Of Computer Systems (A), Operating Systems (A)

**Undergraduate Courses:** Software Engr Senior Project (A), Software Engineering I (A), Object-Oriented Programming (A), Programming In C (A+), Foundations Of Computer Science (A-)

## TEACHING EXPERIENCE

---

**Graduate Teaching Assistant, Purdue University** Jan. 2019 – Present

- **Courses:** Data Mining (2 semesters), Systems Programming (4 semesters), Computer Architecture (3 semesters).
- Led lab sections each semester for **50+** students, supervised **10+** undergraduate TAs, collaborated with GTAs to develop teaching materials, and managed administrative responsibilities.
- Received excellent teaching evaluations and awarded multiple teaching awards for leadership, communication, and adaptability.
- **Guest lecturer** on Human-Computer Interaction; Lecture on AI Ethics and Fairness
- **Guest lecturer** on Systems Programming; Lecture on Implementation of a Concurrent Web Server

**Undergraduate Teaching Assistant, Purdue University** Jan. 2018 – Dec. 2018

- **Courses:** Systems Programming (2 semesters), Operating Systems (1 semester).
- Supported lab sessions, provided individualized student support, and collaborated on grading assignments.
- Developed scripts in **Bash** to streamline the evaluation process.

## HONORS AND AWARDS

---

**The Graduate Teaching Award** 2022

- Recognized for exceptional teaching and leadership in graduate level Data Mining course. Awarded based on positive feedback from faculty and students, highlighting approachability, support, and ability to clarify complex concepts.

**Raymond Boyce Graduate Teaching Award** 2020

- Honored for outstanding contributions to the Computer Architecture course. Received recognition on a permanent plaque in the Lawson Computer Science Building.

**Graduated with Distinction, B.S. in Computer Science** 2018

- Awarded to the top **10%** of undergraduate Computer Science students, recognizing exceptional academic performance with a GPA ranking in the 90th percentile of the graduating class.

**Dean's List and Semester Honors (8 Semesters)** Aug. 2015 – Dec. 2018

- Placed consistently on the Dean's List and received Semester Honors during all semesters of the CS undergraduate program.

## REVIEWER

---

**Conference Reviewer; \*Outstanding Reviewer Recognition**

ACM CHI: 2024\*

**Program Committee Member**

ACM IUI: 2025
